

**2001 Classic Mini Se7en.** This highly collectable car is one of 374 examples manufactured by Rover in the final run-out classic range. Only a small number of the Se7en's remain making this car desirable to the enthusiast and collector alike.

This Classic Mini Se7en in Solar Red is in excellent condition inside and out with 62,000 genuine miles and two owners from new. It is currently MOT'd to October 2016. There are also old invoices and original bill of sale available which includes details of the extra upgrades (Rover sun roof and Rover CD player) when first ordered.

This mini Seven has a recorded build date of 23/06/2000, and the chassis number makes it the 2453rd last mini made. It is also one of just nine Sevens registered on a '51' registration plate!

The wheels are the original pepper pot rover design and are in great condition. The colour coded dash and seats are in excellent condition. The MPI engine runs perfectly and the brakes are in excellent condition. Gearbox and clutch all work as they should with no issues. Bodywork, brightwork and paintwork are also excellent with only the beginning of light paint bubbling at the bottom of the passenger door.

Sills and all other panels are in great condition with a lot of money being spent to keep this cars condition and originality. All dials and gauges work as they should. The Rover fitted full length sunroof operates without any issues and is extremely smooth opening and closing.
